

## ORGANIC tea

With no dust in bags or bitter black cups, Hampstead Tea in London makes tea as it should be. Naturally organic, biodynamic and fair-trade, Hampstead Tea comes in a variety of flavours to satisfy drinkers of black, green and even white teas (deliciously sweet and full of antioxidants). For those more adventurous, its range of herbal infusions should suffice. The world has been enjoying tea for more than 5,000 years, but only since 1995 has it been enjoying ethical and biodynamically grown tea from Hampstead Tea.
